

BOMA 2023

INTERNATIONAL CONFERENCE & EXPO
Presented by BOMA International and BUILDINGS

JUNE 24-27 | KANSAS CITY
EXPO DATES: JUNE 25-26

Technology Pavilion Exhibitors

The BOMA Expo features a Technology Pavilion showcasing building technologies, systems, data management solutions and business tools to create and sustain high performing assets. Please review the company profiles and view the technology pavilion on the live floor plan at www.BOMAConference.org/Floorplan.

Plan to visit these companies in Kansas City to learn how they are providing innovative solutions for their customers. (Updated as of 3/10/23)

AMANO McGANN

For over 40 years, Amano McGann has been developing, manufacturing, installing, and servicing parking solutions for a wide variety of businesses throughout North America. They offer complete, scalable PARCS solutions with flexible product lines, powerful parking management software, and comprehensive valet solutions. With over 300 dedicated team members, Amano McGann provides clients with knowledgeable project managers, skilled service and support technicians, and one of the most experienced engineering and development teams in the industry. They are the largest parking solutions manufacturer and distributor in the United States and a leader in the parking industry. Amano McGann installs and supports clients through 20 branch offices and a vast network of authorized distributors. Their branch and distributor teams work cooperatively to support clients and strive for excellence through continuous training and certification with Amano McGann products and services. For more information about Amano McGann, visit www.amanomcgann.com

EVOCHARGE®

EvoCharge, founded in 2009, represents one of North America's original vehicle electrification providers and pioneer of home and commercial charging solutions. As an industry leader in Electric Vehicle Supply Equipment (EVSE) and cable management solutions, EvoCharge provides the most reliable, safe, and cost-effective charging stations and industry leading cable management systems for workplace, fleet, hospitality and other commercial spaces. EvoCharge products are fully compatible with all EV and Plug-in Hybrid Electric Vehicles (PHEV) sold throughout the United States and Canada. EvoCharge is a brand of Phillips and Temro Industries, a trusted partner to major global OEM's and aftermarket provider of engineered systems for automotive, trucking and off-road vehicles for over 100 years.

Kardin

Kardin Systems is the industry leading budgeting software solution designed for the commercial real estate industry. Our software automates budgeting, reforecasting, and reconciliation processes, streamlining financial management for property managers and asset managers alike. Kardin supports dynamic calculations for recoveries, gross-ups, caps, and base years, and facilitates easy auditing through industry-leading reports and back-up schedules. Our software is preferred by property managers for over 25 years and provides real-time budget and reforecast data for asset managers, including year-over-year comparisons, budget comparisons by property, and drill-down reports by account or property. Find out more at www.kardin.com
