# SITE™

## Our AI-driven platform revolutionizes property analysis, giving you a transformative perspective on your property's condition.

Our platform employs cutting-edge technology that outperforms traditional "boots on the ground" assessments, making it **seven times faster and ten times more cost-effective.** The deep insights that our platform delivers help you **save up to 70% of the total CAPEX budget**, making SITE the smart choice for modern property analysis.

Efficiently analyze and evaluate the condition of your pavement, roofing, facade, and HVAC year-over-year, proactively plan repairs, and forecast costs – all in one place!

## THE EXPERIENCE

**IDENTIFY** ⊙ Pinpoint your property's exact locations and boundaries

**MAP** ⊙ Use multiple sources to capture detailed images of your property and create high-resolution orthomosaic maps

**ANALYZE** ⊙ Utilize proprietary AI models to analyze the imagery and extract crucial insights about your property's condition

**ASSESS** ⊙ Assign a condition rating and develop proactive repair plans

**REPAIR** ⊙ Generate bid documents, select the right contractors, and verify the completed repairs

**REPORT** ⊙ Generate detailed capital and maintenance costs projections and customized property reports
