

# BOMA 2024

INTERNATIONAL CONFERENCE & EXPO  
Presented by BOMA International and BUILDINGS

JULY 13-16 | PHILADELPHIA  
EXPO DATES: JULY 14-15

## Technology Pavilion Exhibitors

*The BOMA Expo features a Technology Pavilion showcasing building technologies, systems, data management solutions and business tools to create and sustain high performing assets. Please review the company profiles and view the technology pavilion on the live floor plan at [www.BOMAConference.org/Floorplan](http://www.BOMAConference.org/Floorplan).*

*Plan to visit these companies in Philadelphia to learn how they are providing innovative solutions for their customers. (Updated as of 4/15/24)*

AirGarage is a full-stack parking operator built for the 21st century. We modernize parking assets with a hardware-free, streamlined service that covers everything from payment collection to facility maintenance & more. Our proprietary technology enables us to maintain the highest level of service while dramatically lowering operating costs, leading to our partners taking home up to 50% more each month compared to other operators. Learn more at: <http://airgarage.com>

Alchemco was born to provide a solution with a unique technology that has proven its waterproofing capabilities for over 40 years. With the development of new infrastructure, Alchemco aims to be a world leader in concrete waterproofing systems through innovation, education, and professional implementation of our proprietary waterproofing formula. Problems that may occur on concrete such as corrosion, spalling, and carbonation are a thing of the past and will definitely not become a problem tomorrow, with our world-class warranties and project support, you will feel safe in the hands of our qualified professional as we help you specify, execute, and/or distribute our Alchemco family of products. Learn more at: <http://alchemco.com>

Alert Labs delivers award winning water and A/C intelligence solutions with the AlertAQ™ platform and IoT sensors that are proudly designed and built in North America. From commercial water leak detection to A/C system performance to water use monitoring, measurement and reporting—Alert Labs mission is to help companies protect assets, lower operating costs and increase sustainability for every property across their portfolio. Learn more at: [www.alertlabs.com](http://www.alertlabs.com).

## ashokan

Ashokan isn't your average water company. We're obsessed with protecting water. We advise the government, push for greener laws, and craft water-wise solutions for thirsty buildings. This expertise keeps us on top of our game. Our passion spills beyond business. We partner with communities, educate stakeholders about sustainability, and minimize our environmental footprint. AquaSync, a remote water sub-meter reading system that provides the ability to track and bill retail tenant water consumption, identify leaks, and monitor ESG water initiatives. Learn more at: <http://ashokan.com/>

### Freemotion

At Freemotion, being innovative means questioning how we workout and redefining it. We do things not because everyone else is doing them, but because no one else is doing them. Freemotion equipment comes to life in small and large group training, helping to create new revenue streams. Innovation is about getting there first – just like how Freemotion introduced functional cable-based strength training, the Incline Trainer, and the first road simulating indoor bike. Freemotion is a division of iFIT Health & Fitness (fka ICON Health & Fitness) – a global fitness and technology leader, 40+ years strong. Learn more at: <http://freemotionfitness.com/>

### INFOGRID

Infogrid is a building data and analytics company that empowers real estate professionals to make smarter decisions about the way they run their commercial buildings. Our solutions surface unique insights that empower real estate and facilities teams to reduce operating costs, decrease time spent on routine work, optimize building operations and processes, and identify and act on opportunities to reduce energy and carbon. Learn more at: <http://infogrid.io>

The International Institute of Building Enclosure Consultants (IIBEC) is an international association of design professionals who specialize in roofing, waterproofing, and exterior wall systems and building commissioning. IIBEC consultant members offer unbiased design, repair planning, quality assurance observance, legal testimony, general roofing and other building enclosure management services. IIBEC credentials represent the pinnacle of roofing, waterproofing, exterior wall, and building enclosure commissioning professionalism. IIBEC members are dedicated to the highest standards of professionalism, integrity, and competence, and hold paramount the safety, health, and welfare of the public in the performance of their duties. Visit <http://iibec.org/consultant>  
Website: <http://www.iibec.org>

Kardin Systems is the industry leading budgeting software solution designed for the commercial real estate industry. Our software automates budgeting, reforecasting, and reconciliation processes, streamlining financial management for property managers and asset managers alike. Kardin supports dynamic calculations for recoveries, gross-ups, caps, and base years, and facilitates easy auditing through industry-leading reports and back-up schedules. Our software is preferred by property managers for over 25 years and provides real-time budget and reforecast data for asset managers, including year-over-year comparisons, budget comparisons by property, and drill-down reports by account or property. Find out more at [www.kardin.com](http://www.kardin.com)

LAZ Parking is a parking management service provider that was founded in 1981 by three childhood friends. Today, LAZ operates over one million spaces in thousands of locations and provides parking management services in the following markets: hospitality, commercial properties, healthcare, airport/transportation, campus, municipal, retail/mixed-use, events, residential and shuttle services.

LiveView Technologies is used by the largest companies in the world to provide rapidly deployable surveillance and security whenever and wherever needed. Today, LVT is used by DOTs, oil, gas, law enforcement, retail, construction, housing, and other industries. LiveView Technologies has spent years developing the first remote, full security solution. LVT camera units rapidly deploy whenever and wherever you need them. No need for wires, power, or internet. Founded 2005. Website: <http://www.lvt.com>

Mechanical Ingenuity Corp., MIC is introducing their line of replacement LED lamps for T8 & T12 fluorescent and highbays' lamps. MIC LED lamps provide energy savings with a short pay back and are designed without Photometric Flicker (Invisible Flicker). Photometric Flicker has been known to cause migraines, fatigue, blurred vision, and eyestrain in certain populations. No flicker LED lamps are recommended by IEEE for installation in Hospitals, Schools, Offices, General Lighting, and Industrial Spaces. MIC lamps are designed for long life. The aluminum extrusion heat sinks enable lower LED junction temperatures with less light degradation. MIC has added these upgraded features while being cost competitive. MIC has been designing and manufacturing energy saving and environmentally friendly products for industrial/commercial market since 1987.

Every day, commercial buildings are being hacked through their building system networks. Intelligent Riser, [www.riser.com](http://www.riser.com), protects against cyberattacks by securing the networks that run the building systems. It is a smart building platform that employs enterprise-class network security across all building systems. The systems are then monitored 24x7x365 to ensure they are secure, up, and running. Remote access by vendors and building staff is also provisioned and monitored. Intelligent Riser is a proven solution that has been installed in hundreds of commercial high-rise buildings since 2010. It is also affordable, with scaled pricing that accommodates a specific requirement or a building portfolio. Intelligent Riser is now the most secure, most installed building systems network solution in the world. We invite you contact us and learn why. Intelligent Riser. The Smart Building Platform for Commercial Real Estate. Website: <https://riser.com/>

Facility & property management technology. myWork offers a suite of technology solutions that improve the sustainability of properties and the well-being of the people who live and work in them. In the world of property and facility management every second counts, and with myWork, every task and request is seamlessly managed. We've built multiple products to reimagine facility management —making it more affordable for contractors and more profitable for property managers. And we're just getting started. Newbridge Wireless is an industry leader as a cellular infrastructure solutions provider for both new construction and retrofit buildings. Newbridge Wireless works with property owners and managers to ensure tenants have uninterrupted cellular coverage. Construction materials block wireless signals, creating dead zones and areas with limited cellular coverage. Tenants also experience capacity issues in high traffic areas. Newbridge Wireless is an industry leader in coverage enhancement solutions for first responder radio and all major wireless carriers. To learn more, visit [www.newbridgewireless.com](http://www.newbridgewireless.com) or email us [info@newbridgewireless.com](mailto:info@newbridgewireless.com).

Numa is the new standard for air distribution: each person controls their own air, ending the fight over the thermostat. By providing focused cones of clean air, everyone can be comfortable and breathe cleaner air while buildings save energy by cooling and ventilating people not spaces. The Numa-I air vent is as smart as it is tough: app control over Bluetooth, occupancy sensing, BACnet interface for BMS integration, airflow and temperature measurement, all enclosed in die-cast aluminum and steel. Learn more at: <http://numaproducts.com>

Ooma (NYSE: OOMA) provides leading communications services and related technologies that bring unique features, ease of use, and affordability to businesses of all sizes through a smart cloud-based SaaS platform. Ooma delivers advanced voice and collaboration features including messaging, intelligent virtual attendants, and video conferencing to help them run more efficiently. Call us today to transform your traditional office phone into an advanced phone system. Learn more at: <http://ooma.com>

## Premium Parking

Premium Parking was established in June of 2005 by Jim Huger. Jim founded Premium Parking with the belief that a parking company focused on building the "right" corporate culture would be successful. Premium Parking is now the fastest growing parking operator in New Orleans with over 35 locations and 100 associates. Learn more at: <http://www.premiumparking.com>

Stock mats from typical matting manufacturers are not the answer for Class A properties with large lobbies. Proform specializes in working with Class A Office Buildings, Hotels, Hospitals, Residential High Rise, Education, Stadium, & Corporate facilities. Our goal is to help our clients achieve more 1) A beautiful entrance. The appearance of the matting should meet or exceed the standards set by the interior design & architecture of the building. 2) A greener way to clean. There is no greener way to clean & improve air quality than to stop the dirt at the door without chemicals, labor, or energy. 3) Safety. A quality matting program reduces the risk & liability of trip and fall 4) Layout Design (keep the matting in the natural walk pattern of guests) 5) Color & Pattern (our design professionals will work off your CAD and photos to create the perfect layout for your lobby) 6) Floor protection (quality matting increases the longevity of the capital investment in flooring) 7) Transport, Storage, & re-assembly (facility operations need matting made to the right weight & size) 888-331-3100.
