

# How Building Engineers Become Superstars

**BOMA 2019**

INTERNATIONAL CONFERENCE & EXPO  
Presented by BOMA International and BUILDINGS

JUNE 22-25 | SALT LAKE CITY, UT  
EXPO DATES: JUNE 23-24

Building engineers attend the **2019 BOMA International Conference & Expo** to find all the latest ways to gain efficiencies, improve operations, cut costs and more. These four productive days are the best investment you can make for your property. See for yourself what you'll gain.

## LEARN

Choose from **40+ education sessions in 7 specialized tracks**. The **High Performance Buildings** track focuses on energy efficiency, durability, life-cycle performance, occupant productivity, sustainability and technology in buildings to help you improve processes, reduce your building's carbon footprint and lower expenses while maintaining a highly optimized building.

**All education sessions qualify for RPA, FMA, SMA, SMT and ARM renewal and continuing professional development credits.** Some sessions also qualify for GBCI continuing education hours for LEED® designations, and some sessions qualify for renewal credits for the Building Operator Certification (BOC®).

## DISCOVER

See the newest innovations that building engineers are using to keep properties well-maintained and running smoothly—you'll gain **access to more than 400 qualified vendor partners and solution providers, all under one roof**. You've got questions, they've got answers—take advantage of this opportunity to meet face-to-face and explore the latest in:

**Energy-efficient electrical and lighting**

**Updated building automations and controls**

**Solutions for reducing maintenance costs**

## CONNECT

Meeting with fellow building engineers and sharing challenges and successes can introduce you to ideas and strategies that you've never thought of before—and your expanded professional network ultimately helps your building far into the future. You'll also connect with many others involved in commercial real estate:

- Property managers
- Facility managers
- Asset managers
- Owners and investors
- Developers and builders
- Architects and designer

Just about every aspect of building maintenance is covered, and so being able to find those individuals with that specific knowledge and being able to tap into them when you need them is tremendously helpful.

-Patrick Shaw, Director of Engineering and Maintenance Services, Cushman & Wakefield

**IT'S WORTH THE TIME AWAY**
